Supporting Community Members	<p>Given the current political context, we want to share messages of inclusion and support for vulnerable members in our community. How can we support immigrant and refugee populations? We want to work on developing a better information distribution network. We need to work on building connections in our neighborhood.</p> <p>Can we draft and share a statement? Should this take the form of an inclusion campaign?</p> <p>Cailin and Ian will work on this and invite others to join.</p>
